PEDOMETRICS-92: DEVELOPMENTS IN SPATIAL STATISTICS FOR SOIL SCIENCE

Edited by J.J. de Gruyter, R. Webster and D.E. Myers

The development of pedometrics
R. Webster 1
Spatial interpolation: an overview
D.E. Myers 17
Temporal change of spatially autocorrelated soil properties: optimal estimation by cokriging
A. Papritz and H. Flühler 29
Splines — more than just a smooth interpolator
M.F. Hutchinson and P.E. Gessler 45
Quantification of soil textural fractions of Bas-Zaïre using soil map polygons and/or point observations
M. Van Meirvenne, K. Scheldeman, G. Baert and G. Hofman 69
Cokriging versus kriging in regionalized multivariate data analysis
H. Wackernagel 83
Study of spatial relationships between two sets of variables using multivariate geostatistics
P. Goovaerts 93
Spatial interpolation of soil moisture retention curves
M. Voltz and M. Goulard 109
Factors causing field variation of direct-seeded flooded rice
A. Dobermann 125
A structured approach to designing soil survey schemes with prediction of sampling error from variograms
P. Domburg, J.J. De Gruijter and D.J. Brus 151
Variability of variograms and spatial estimates due to soil sampling: a case study
C. Gascuel-Odoux and P. Boivin 165
Heterogeneity, plot shape effect and optimum plot size
R. Zhang, A.W. Warrick and D.E. Myers 183
The use of prior information in spatial statistics
A. Stein 199
Simulation and areal interpolation of reactive solute transport
W.J.P. Bosma, M.P.J.C. Marinussen and S.E.A.T.M. Van der Zee 217
Improving design-based estimation of spatial means by soil map stratification. A case study of phosphate saturation
D.J. Brus 233
Application of disjunctive cokriging to compare fertilizer scenarios on a field scale
P.A. Finke and A. Stein 247

Application of indicator simulation to modelling the lithological properties of a complex confining layer
M.F.P. Bierkens and H.J.T. Weerts 265
Quantitative analysis of distribution of soil types: existence of an evolutionary sequence in Amazonia
M. Grzebyk and D. Dubrucq 285
Temporal stability of spatial patterns of soil water storage in a cultivated Vesuvian soil
V. Comegna and A. Basile 299
The state of the art in pedometrics
P.A. Burrough, J. Bouma and S.R. Yates 311

Research Papers
Total luminescence spectroscopy of aqueous pine litter (O horizon) extracts: organic ligands and their Al or Cu complexes
A. Yang, G. Sposito and T. Lloyd 327
Phosphorus transformations in a toposequence of Lithosols and Cambisols from semi-arid northeastern Brazil
J.O. Agbenin and H. Tiessen 345
Andisols of Madeira Island (Portugal). Characteristics and classification
M. Madeira, A. Furtado, E. Jeanroy and A.J. Herbillon 363

Book Reviews 385
